

The Business of Vaccine Development

WORKSHOP

This professional development workshop led by industry-experienced instructors targets professionals interested in learning new skills to meet the demands of the rapidly changing biotechnology and biomanufacturing fields.

OCTOBER 9, 2013
8:00AM to 5:00PM

HOSTED BY:

The National School of Tropical Medicine at Baylor College of Medicine *and* The National Center for Therapeutics Manufacturing at Texas A&M University

WORKSHOP OBJECTIVES:

- ∞ To examine the 7 major areas of biotechnology operations and the functional areas of vaccine development.
- ∞ To discuss the concept of starting from the end, while focusing on the end user and the intended use of the product.
- ∞ To review the rationale for the importance of product development planning.
- ∞ To practice case studies involving target product profiles and product development strategies with a focus on Quality by Design (QbD) and biomanufacturing planning sections.
- ∞ To apply this knowledge via hands-on exercises and discussion groups with the assistance of subject matter experts.

PLEASE NOTE: Attendees must bring their own laptops or tablets to participate in case studies.

To register, please visit the following link:

<http://engrevent.tamu.edu/event/100983>

Registration fee: \$195

Note: Participants receive 1 Continuing Education Unit (CEU) upon completion.

This workshop is offered in conjunction with the **2nd Annual Vaccine Biotechnology Conference** hosted by NSTM-BCM on October 10, 2013. Learn more about the conference here:
