

The **National Center for Therapeutics Manufacturing (NCTM)** at Texas A&M appreciates military veterans' strong sense of responsibility, professionalism and dedication to mission success, as well as their ability to work in challenging and demanding environments – all qualities that will make them perfect additions to the pharmaceutical industry.

FREE Training for TEXAS MILITARY VETERANS

All expenses covered – tuition, travel, lodging, and meals NO GI BILL BENEFITS REQUIRED!*

NCTM is seeking recently-discharged Texas service members who are interested in getting the skills needed to obtain a successful career in the fast-growing pharmaceutical and biotech industries.

Graduates will receive a **Biomanufacturing Technical Certificate**, a vocational training program consisting of 35 hours of online learning and 3 weeks of hands-on, applied instruction at the NCTM in College Station, Texas. Program includes more than 180 hours of professional development in upstream and downstream manufacturing processes, sterile environment protocol, bioprocess equipment operations, quality unit operations, documentation practices, regulatory compliance, and standard operating procedures common in the biopharmaceutical manufacturing industry.

MAR 14, 2016 ▶ Registration Deadline
MAR 21, 2016 ▶ Online Training Opens
APR 4–22, 2016 ▶ Training at NCTM
